

Ayadi EVK | Innovation Solution for Safe drinking Water

About us:

OUR COMPANY

AYADI EVK is saudi-based company founded 1998 by experienced engineer Mr. Fawzy Eltaweel who has more than 30 years of expertise in the plastic manufacturing industry and water systems for irrigation and drinking.

AYADI Specialized in manufacturing of pipe fittings for water, irrigation and fire fighting. Pride on providing high-quality systems that are mechanically strong, tolerant to high water pressure and temperature, and easy to install. All products are manufactured according to international standards making them one of the most reliable options in the market.

AYADI Providing high-quality products and service to our customers, while also prioritizing sustainability and innovation. We believe that by focusing on our core values, we can not meet the needs of our clients, but also contribute needs of our clients, but also contribute to the development of the industries we serve.

POLYPRPLENE P.P. COATED STEEL FLANGE

This flange is made of iron and then covered with polypropylene that can withstand a pressure of 16 bars. It is used to connect HDPE pipes and is characterized by being rust-proof, which extends its lifespan on site. It can be used buried or exposed on the ground surface.

cking Ring PN16, with steel for stub and pp-steel							H: Thickness of steel flange			
							H1: Thickness of pp one side

Part	Material	Colour
Nut Scrw (A)	It is made of polypropylene and wetighten the connection on the pipe .	BLUE
Clanshing Ringe (B)	It is made of polypropylene acetal and is non shrinkable, so it is considered the most important part of the piece because it seale the rubber on leakag.	white
Blocking bush (C)	It is mode of polypropylene and seals the rubber inside the piece and is black in color.	BLACK
Rubber (D)	It is made of DEMP, this material is characterized py its strength and resistance to cutting when exposed to tensile stresses resulting from water pressure.	BLACK
Body (E)	It is made of polypropylene which is rust-resistant and can withstand high pressures of up to 16 bar as operating pressure , and can also withstand tensile forces resulting from water pressure.	blue / black

Polyprylene Compression Coupling.

Polyprylene Compression Coupling are made from the raw material and are available in size from 20mm o.d. to 110mm o.d. this fittings is designed to connect two lengths of Polyprylene (PE) pipe of the same diameter together, which can be done assembly and installation take place without need of any adhesives or welding material.
